Who is this for?

This is aimed at GPs and senior clinicians (nurses, allied health professionals, paramedics, and clinical pharmacists) working in primary, community, and social care.

What is this for?

By its end, attendees will:

- Understand what is meant by mentoring, and how this differs from counselling and therapy;
- Have practiced and developed their listening skills;
- Have practiced enabling their mentees to set meaningful goals;
- Know of and have practiced a range of strategies which'll enable their mentees to achieve these goals;
